

## Theomatik®: Spreading bread with independence and ease

Theomatik® is an innovative tool designed to **help people who can only use one arm eat independently**, both at home and on the go. Allowing people to eat without assistance boosts their independence and self-esteem, making the process easier and more enjoyable.

The product is designed with an ergonomic focus to stimulate fine motor skills, which is essential for older adults and those in rehabilitation. Its tactile and sensory features are important, and the orange color was chosen for its visual support for people with visual impairments or dementia.

In addition to **restoring independence and dignity**, Theomatik® also **reduces the workload of caregivers**, allowing them to focus on other tasks. It offers value to users while also providing a solid return on investment for care institutions like hospitals and nursing homes.

The Theomatik® assistive lunch plates are **stackable**. They were specially designed for easy stacking with a focus on **optimal space utilization**. The plates also contain **conical openings** intended to hold jars or packagings with a diameter ranging from **20 to 70 mm**.

### What is the Theomatik® by Bouncer?

The Theomatik® is a clever tool specially developed for people who face difficulties spreading their bread. It consists of a stackable tray that provides a stable and practical workspace, allowing you to use butter, spreads, and a knife without needing to hold the bread.

With its smart design, the Theomatik® offers a solution for individuals with limited hand strength or mobility, such as seniors or those with physical disabilities. The tray ensures that everything is within easy reach and prevents spills or movement, so you can enjoy your meal stress-free.

#### Packaging cutter:

Small, safe cutting tool to open all types of packaging and bags. E.g. sugar, tea, cheese, or ham, all with one hand.

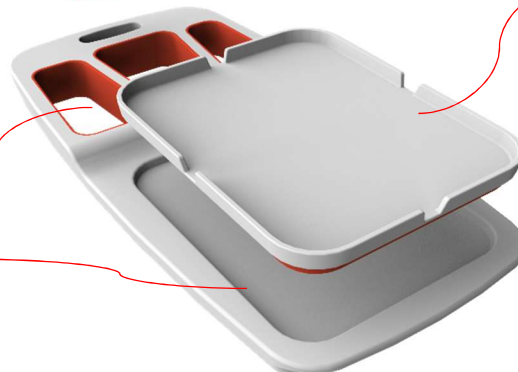

#### Small lunch plate:

Allows you to secure a sandwich between its four raised edges. It has a non-slip base and features pre-shaped cutting guides on the sides, making it easy to slice your sandwich.

#### Anti-slip: slice your sandwich.

Non-slip underside that ensures stability on tables and trays, making it easier to open jars or cut bread without the tray moving.

## The key features of the Theomatik®

1. **Stable Design:** The tray's special design ensures that your bread or spread doesn't slip. Its shape and structure keep everything securely in place, so you can spread without worry.
2. **Stackable:** The Theomatik® is stackable, making it easy to store and transport. This makes it practical for home use as well as convenient for on-the-go needs.
3. **Handy Compartments:** The tray includes various compartments for butter, spreads, and a knife, keeping everything neat and organized.
4. **Ease of Use:** The design allows people with limited hand function or strength to complete the task without assistance. The tray minimizes the effort required to spread your bread.

## The Benefits of the Theomatik®

The Theomatik® offers several benefits for individuals who want to maintain their independence while preparing a simple meal. The main advantages include:

1. **Independence:** The Theomatik® enables you to spread your bread without assistance, giving you a sense of autonomy and control. This is particularly valuable for individuals who might otherwise rely on a caregiver or family member for this task.
2. **Convenience and Comfort:** The Theomatik®'s smart design reduces strain on your hands and arms. The spreading process becomes easier, sparing you from fatigue or discomfort.
3. **Enhanced Safety:** Since the tray holds the bread and spreads securely in place, you avoid spills or shifting. This not only makes the process easier but also safer, especially for those with reduced coordination.
4. **Suitable for Various Groups:** The Theomatik® is ideal for individuals with arthritis, reduced vision, limited hand strength, or other physical challenges. It provides a practical solution for a common daily difficulty.
5. **Durable and User-Friendly:** The tray is designed to be long-lasting and easy to use. It's simple to clean and store, taking up minimal space.

## The Theomatik® in Practice

The Theomatik® is perfect for use in a home setting but is also valuable in care facilities or nursing homes. It provides a practical way to prepare meals more easily and safely, particularly for seniors who often struggle with fine motor skills or for individuals recovering from an injury or surgery.

For home users, it means you can spread your bread without assistance, making you less dependent on others for a simple task like this. This contributes to a greater sense of self-sufficiency and improved quality of life.

## Conclusion

The Theomatik® is a practical and innovative tool that helps individuals with limited mobility or hand strength spread their bread independently. It offers a simple solution to a common challenge, allowing you to perform this task on your own. Whether you are a senior, a person with a physical disability, or someone recovering from surgery, the Theomatik® ensures that you can enjoy your meals with ease and comfort. It's a perfect way to maintain independence and build confidence in your daily routines.
